Preface

Read *What's New* to learn about new features and enhancements in Data Validation for the July 2026 release.

Informatica Resources

Informatica provides you with a range of product resources through the Informatica Network and other online portals. Use the resources to get the most from your Informatica products and solutions and to learn from other Informatica users and subject matter experts.

Informatica Documentation

Use the Informatica Documentation Portal to explore an extensive library of documentation for current and recent product releases. To explore the Documentation Portal, visit https://docs.informatica.com.

If you have questions, comments, or ideas about the product documentation, contact the Informatica Documentation team at infa_documentation@informatica.com.

Informatica Intelligent Cloud Services web site

You can access the Informatica Intelligent Cloud Services web site at http://www.informatica.com/cloud. This site contains information about Informatica Cloud integration services.

Informatica Intelligent Cloud Services Communities

Use the Informatica Intelligent Cloud Services Community to discuss and resolve technical issues. You can also find technical tips, documentation updates, and answers to frequently asked questions.

Access the Informatica Intelligent Cloud Services Community at:

https://network.informatica.com/community/informatica-network/products/cloud-integration

Developers can learn more and share tips at the Cloud Developer community:

https://network.informatica.com/community/informatica-network/products/cloud-integration/cloud-developers

Informatica Intelligent Cloud Services Marketplace

Visit the Informatica Marketplace to try and buy Data Integration Connectors, templates, and mapplets:

https://marketplace.informatica.com/

Data Integration connector documentation

You can access documentation for Data Integration Connectors at the Documentation Portal. To explore the Documentation Portal, visit https://docs.informatica.com.

Informatica Knowledge Base

Use the Informatica Knowledge Base to find product resources such as how-to articles, best practices, video tutorials, and answers to frequently asked questions.

To search the Knowledge Base, visit https://search.informatica.com. If you have questions, comments, or ideas about the Knowledge Base, contact the Informatica Knowledge Base team at KB_Feedback@informatica.com.

Informatica Intelligent Cloud Services Trust Center

The Informatica Intelligent Cloud Services Trust Center provides information about Informatica security policies and real-time system availability.

You can access the trust center at https://www.informatica.com/trust-center.html.

Subscribe to the Informatica Intelligent Cloud Services Trust Center to receive upgrade, maintenance, and incident notifications. The Informatica Intelligent Cloud Services Status page displays the production status of all the Informatica cloud products. All maintenance updates are posted to this page, and during an outage, it will have the most current information. To ensure you are notified of updates and outages, you can subscribe to receive updates for a single component or all Informatica Intelligent Cloud Services components. Subscribing to all components is the best way to be certain you never miss an update.

To subscribe, on the Informatica Intelligent Cloud Services Status page, click **SUBSCRIBE TO UPDATES**. You can choose to receive notifications sent as emails, SMS text messages, webhooks, RSS feeds, or any combination of the four.

Informatica Global Customer Support

You can contact a Global Support Center through the Informatica Network or by telephone.

To find online support resources on the Informatica Network, click **Contact Support** in the Informatica Intelligent Cloud Services Help menu to go to the **Cloud Support** page. The **Cloud Support** page includes system status information and community discussions. Log in to Informatica Network and click **Need Help** to find additional resources and to contact Informatica Global Customer Support through email.

The telephone numbers for Informatica Global Customer Support are available from the Informatica web site at https://www.informatica.com/services-and-training/support-services/contact-us.html.

CHAPTER 1

October 2026

The October 2026 release of Data Validation includes the following updates.

Changelog October 2026

Read the changelog to learn about significant changes to this publication for this release.

The following table describes changes in this publication:

Publication Date	Type of Change	Section Title
September 10, 2026	Initial publication	

New features and enhancements

The October 2026 release of Data Validation includes the following new feature and enhancement.

Support for PowerExchange VSAM and Sequential connections

You can now use PowerExchange Virtual Storage Access Method (VSAM) and Sequential connections in Data Validation to validate data. Use these connections to run a heterogeneous validation between a single PowerExchange source table and Teradata, and confirm that the data matches between both systems.

For more information, see *Introducing Data Validation*.

CHAPTER 2

July 2026

The July 2026 release of Data Validation includes the following updates.

Changelog July 2026

Read the changelog to learn about significant changes to this publication for this release.

The following table describes changes in this publication:

Publication Date	Type of Change	Section Title
June 11, 2026	Initial publication	

New features and enhancements

The July 2026 release of Data Validation includes the following new feature and enhancement.

Support for ODBC connections with the SAP Sybase ASE sub-type

Data Validation supports ODBC connections with the SAP Adaptive Server Enterprise (ASE) sub-type. You can create test cases and saved SQL queries to validate data in Sybase databases.

For more information, see *Introducing Data Validation*.

CHAPTER 3

October 2025

The October 2025 release of Data Validation includes the following update.

New features and enhancements

The October 2025 release of Data Validation includes the following new feature and enhancement.

Support for Transport Layer Security (TLS) version 1.3 protocol

Data Validation uses TLS version 1.3 as the protocol to encrypt communications between the clients and servers. It ensures confidentiality and integrity of the data that is transmitted across a connection.

TLS version 1.3 offers a faster TLS handshake.
For more information, see *Secure Agent Services* in the Administrator help.

CHAPTER 4

July 2025

The July 2025 release of Data Validation includes the following update.

New features and enhancements

The July 2025 release of Data Validation includes the following new feature and enhancement.

Support for flat file format in Amazon S3 v2 connections

You can create test cases for flat files within an Amazon S3 v2 connection.

For more information, see *Introducing Data Validation* and *Test Cases*.
