Upgrade Paths

Version 10.5.1

When you upgrade from a previous version, follow the supported upgrade paths to ensure a smooth and successful upgrade. If the domain contains multiple products supported by the 10.5.1 installer, upgrade them all to the same version before you apply the 10.5.1 hotfix. This article includes upgrade paths for all products supported in the 10.5.1 Informatica installer.

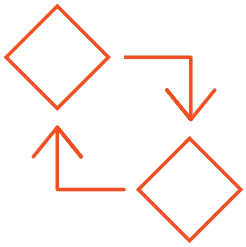

Data Engineering Integration & Data Engineering Quality

Data Engineering Streaming

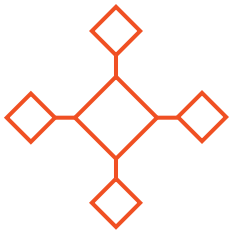

Enterprise Data Catalog

Enterprise Data Preparation

Data Privacy Management

PowerCenter & Data Quality

Test Data Management

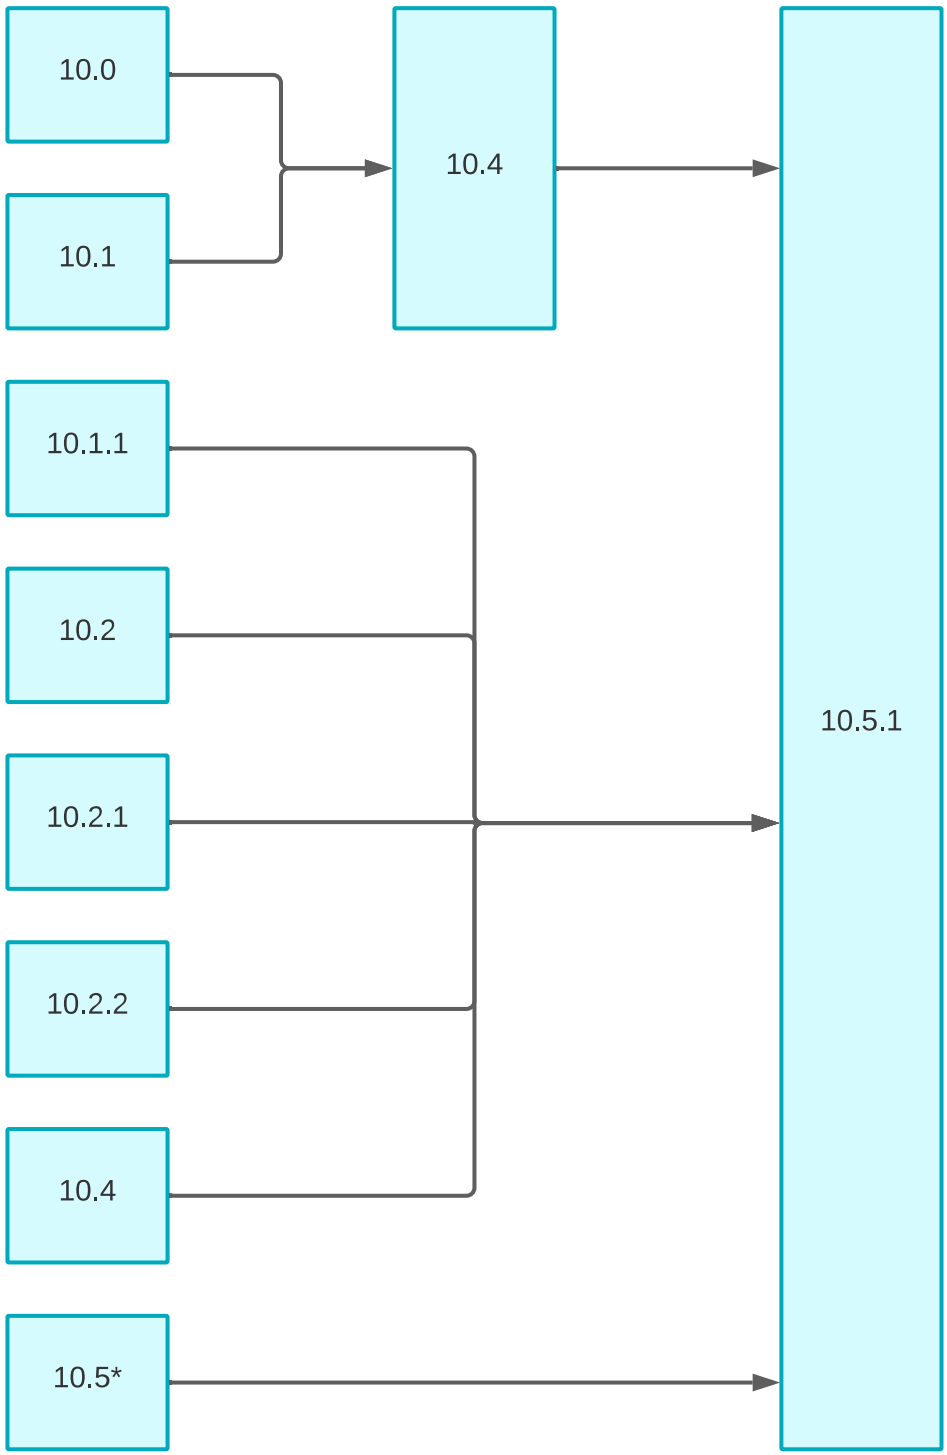

Unless otherwise noted, upgrade paths in this article include hot fixes, service packs, and cumulative patches.

Informatica

Data Engineering Integration & Data Engineering Quality

The following image shows the upgrade paths to version 10.5.1 for Data Engineering Integration and Data Engineering Quality. To open the guide, click on any box in the upgrade path.

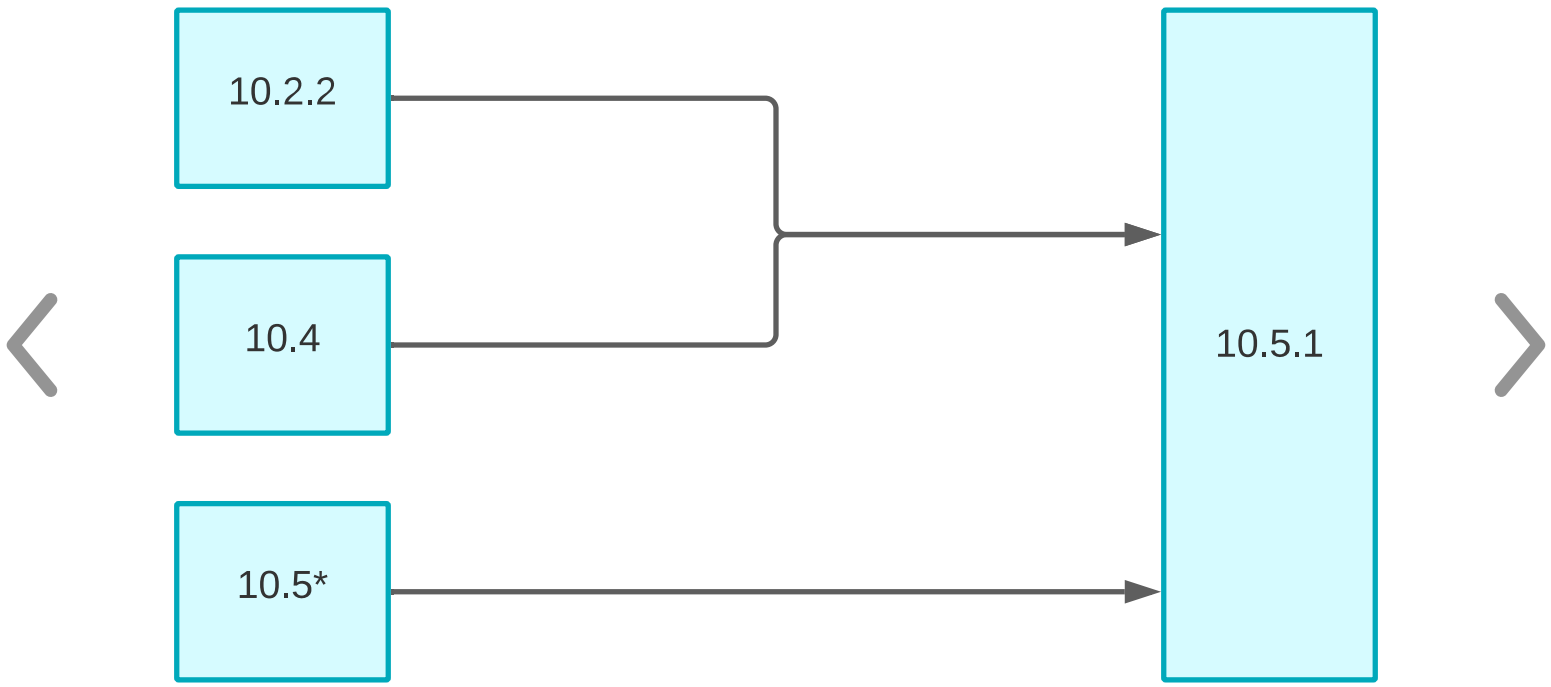

*To upgrade from 10.5, apply the 10.5.1 hotfix.

Informatica

Data Engineering Streaming

The following image shows the upgrade paths to version 10.5.1 for Data Engineering Streaming. To open the guide, click on any box in the upgrade path.

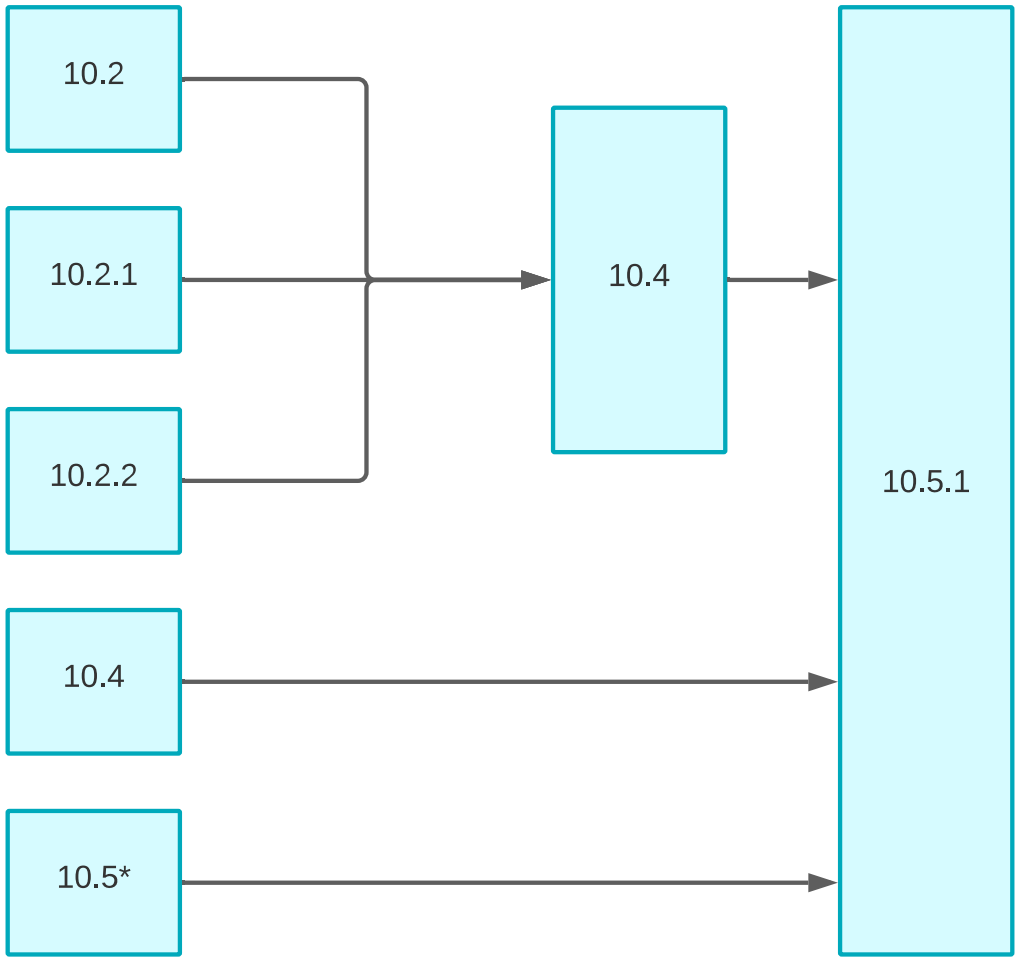

*To upgrade from 10.5, apply the 10.5.1 hotfix.

Informatica

Enterprise Data Catalog

The following image shows the upgrade paths to version 10.5.1 for Enterprise Data Catalog. To open the guide, click on any box in the upgrade path.

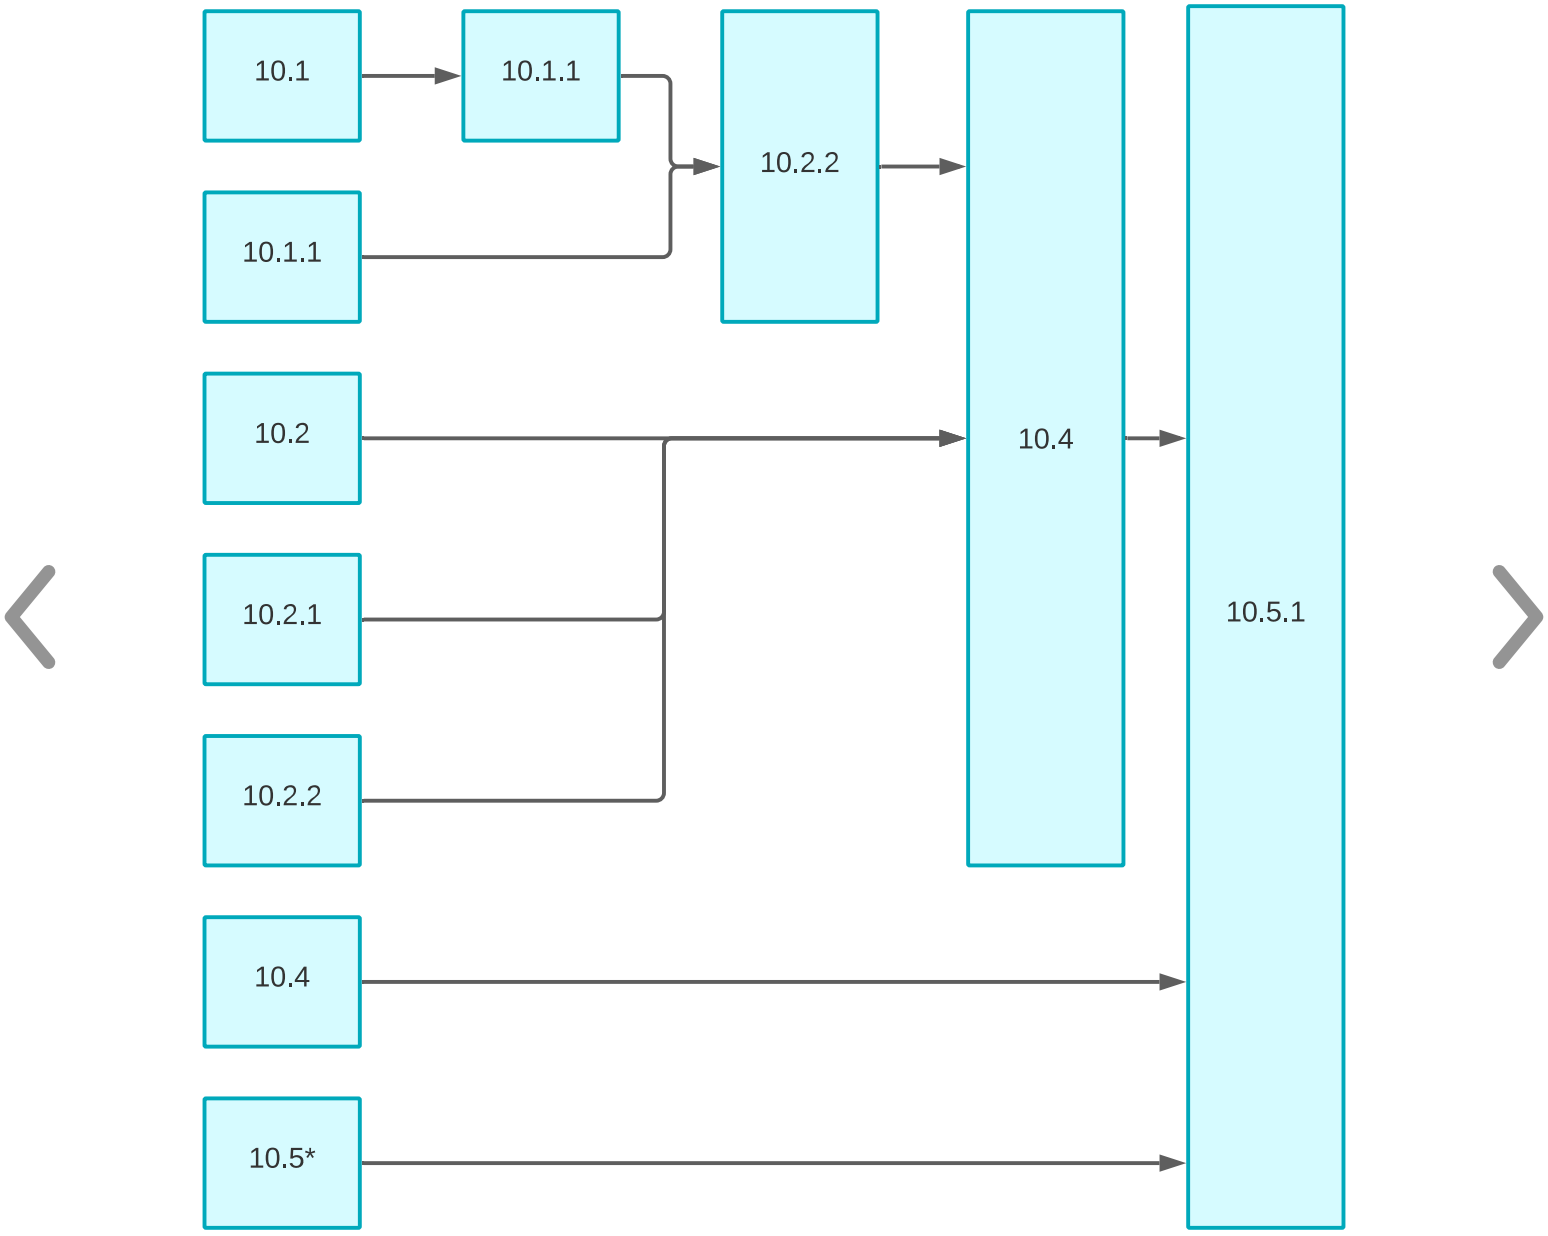

If Enterprise Data Catalog and Data Engineering are in the same domain of a version earlier than 10.4, upgrade them both to version 10.4 before you upgrade to 10.5.1.

*To upgrade from 10.5, apply the 10.5.1 hotfix.

Informatica

Enterprise Data Preparation

The following image shows the upgrade paths to version 10.5.1 for Enterprise Data Preparation. To open the guide, click on any box in the upgrade path.

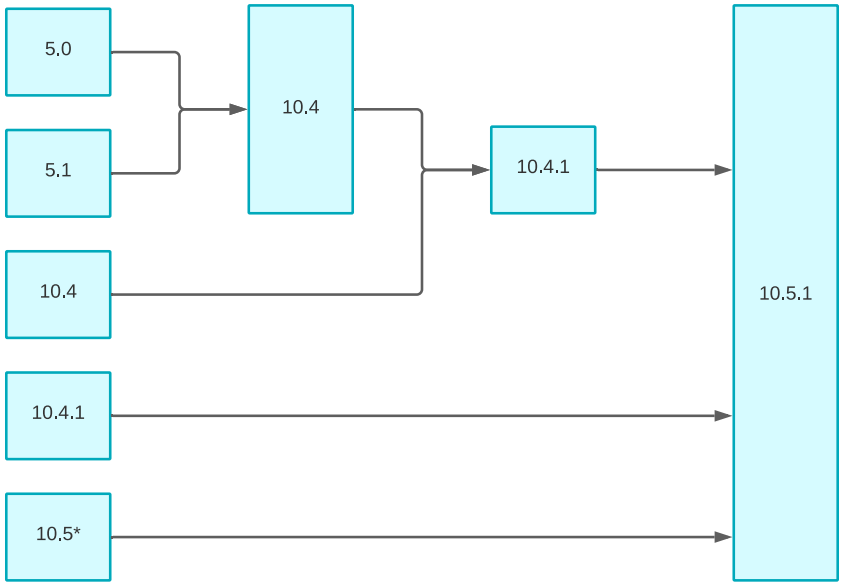

If Data Engineering, Enterprise Data Catalog, and Enterprise Data Preparation are in the same domain of a version earlier than 10.4, upgrade them all to version 10.4 before you upgrade to 10.5.1.

*To upgrade from 10.5, apply the 10.5.1 hotfix.

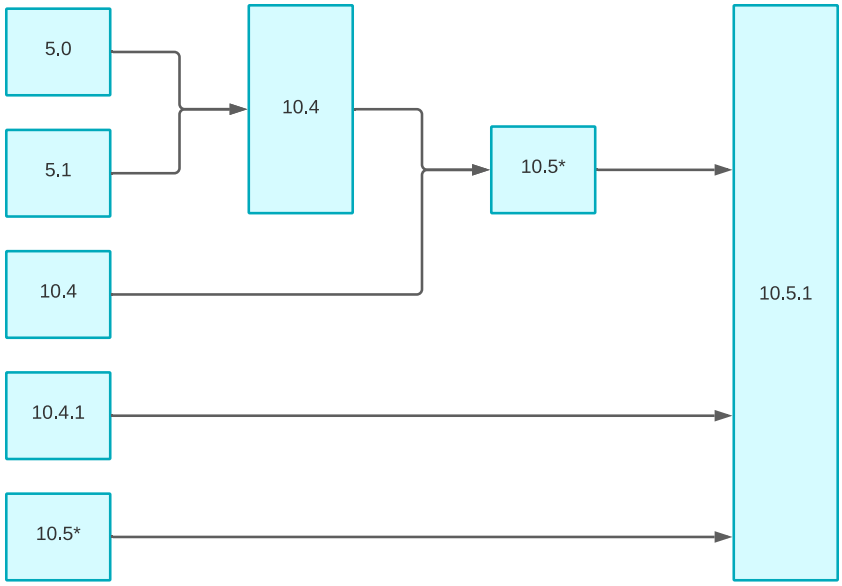

Data Privacy Management

The following images show the upgrade paths to version 10.5.1 for Data Privacy Management. The upgrade path depends on whether Subject Registry is implemented in version 10.4. To open the guide, click on any box in the upgrade path.

With Subject Registry in 10.4

Without Subject Registry in 10.4

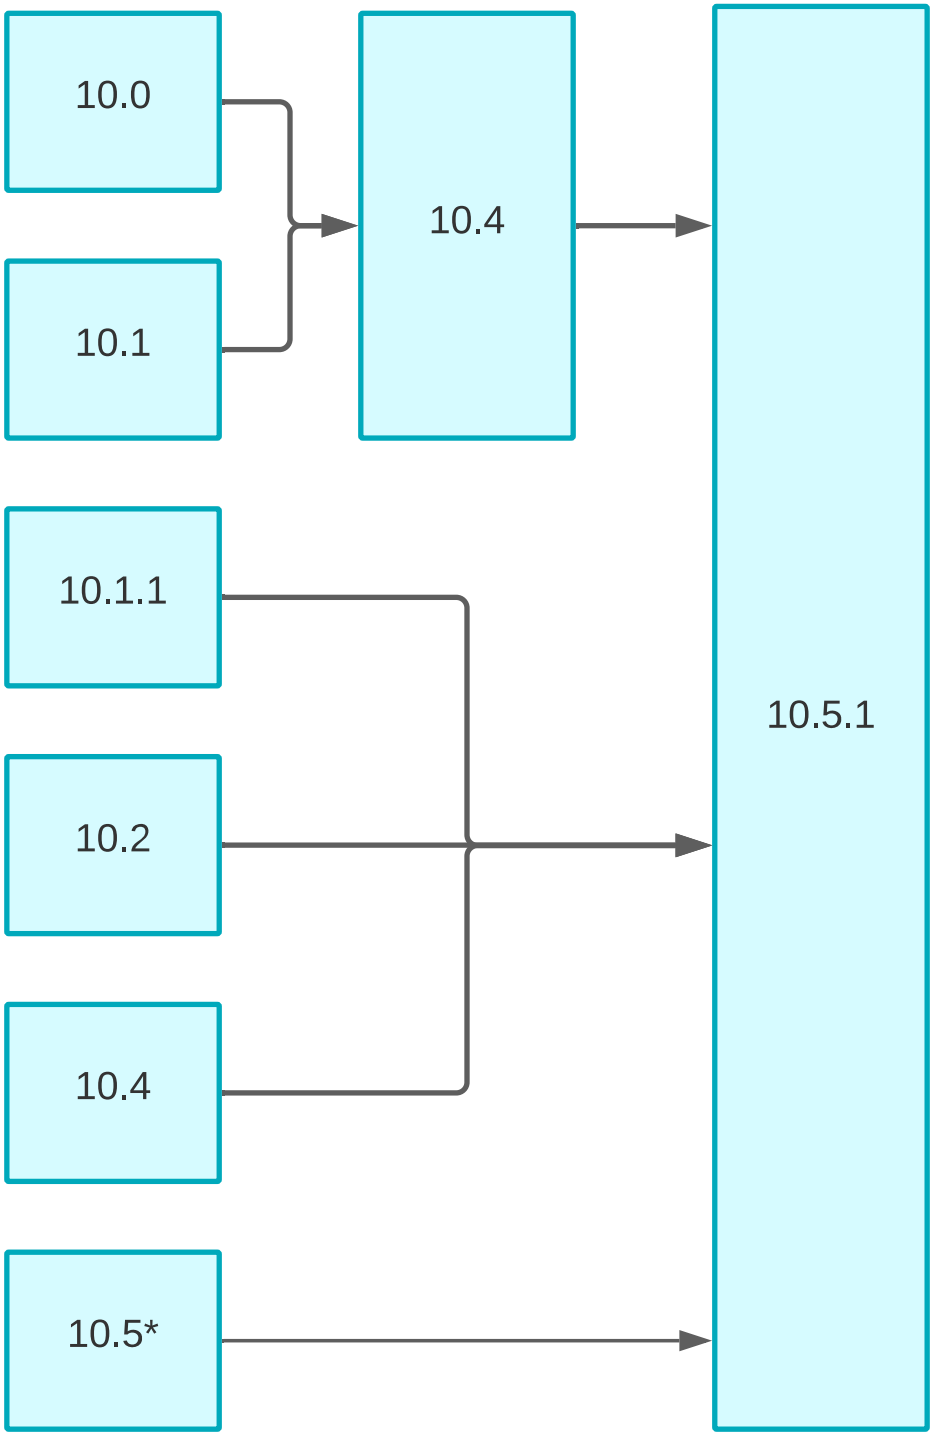

If Data Engineering, Enterprise Data Catalog, and Data Privacy Management are in the same domain of a version earlier than 10.4, verify that they are upgraded to the same version before you upgrade to 10.5.1.

* To upgrade from 10.5, apply the 10.5.1 hotfix.

Informatica

PowerCenter & Data Quality

The following image shows the upgrade paths to version 10.5.1 for PowerCenter and Data Quality. To open the guide, click on any box in the upgrade path.

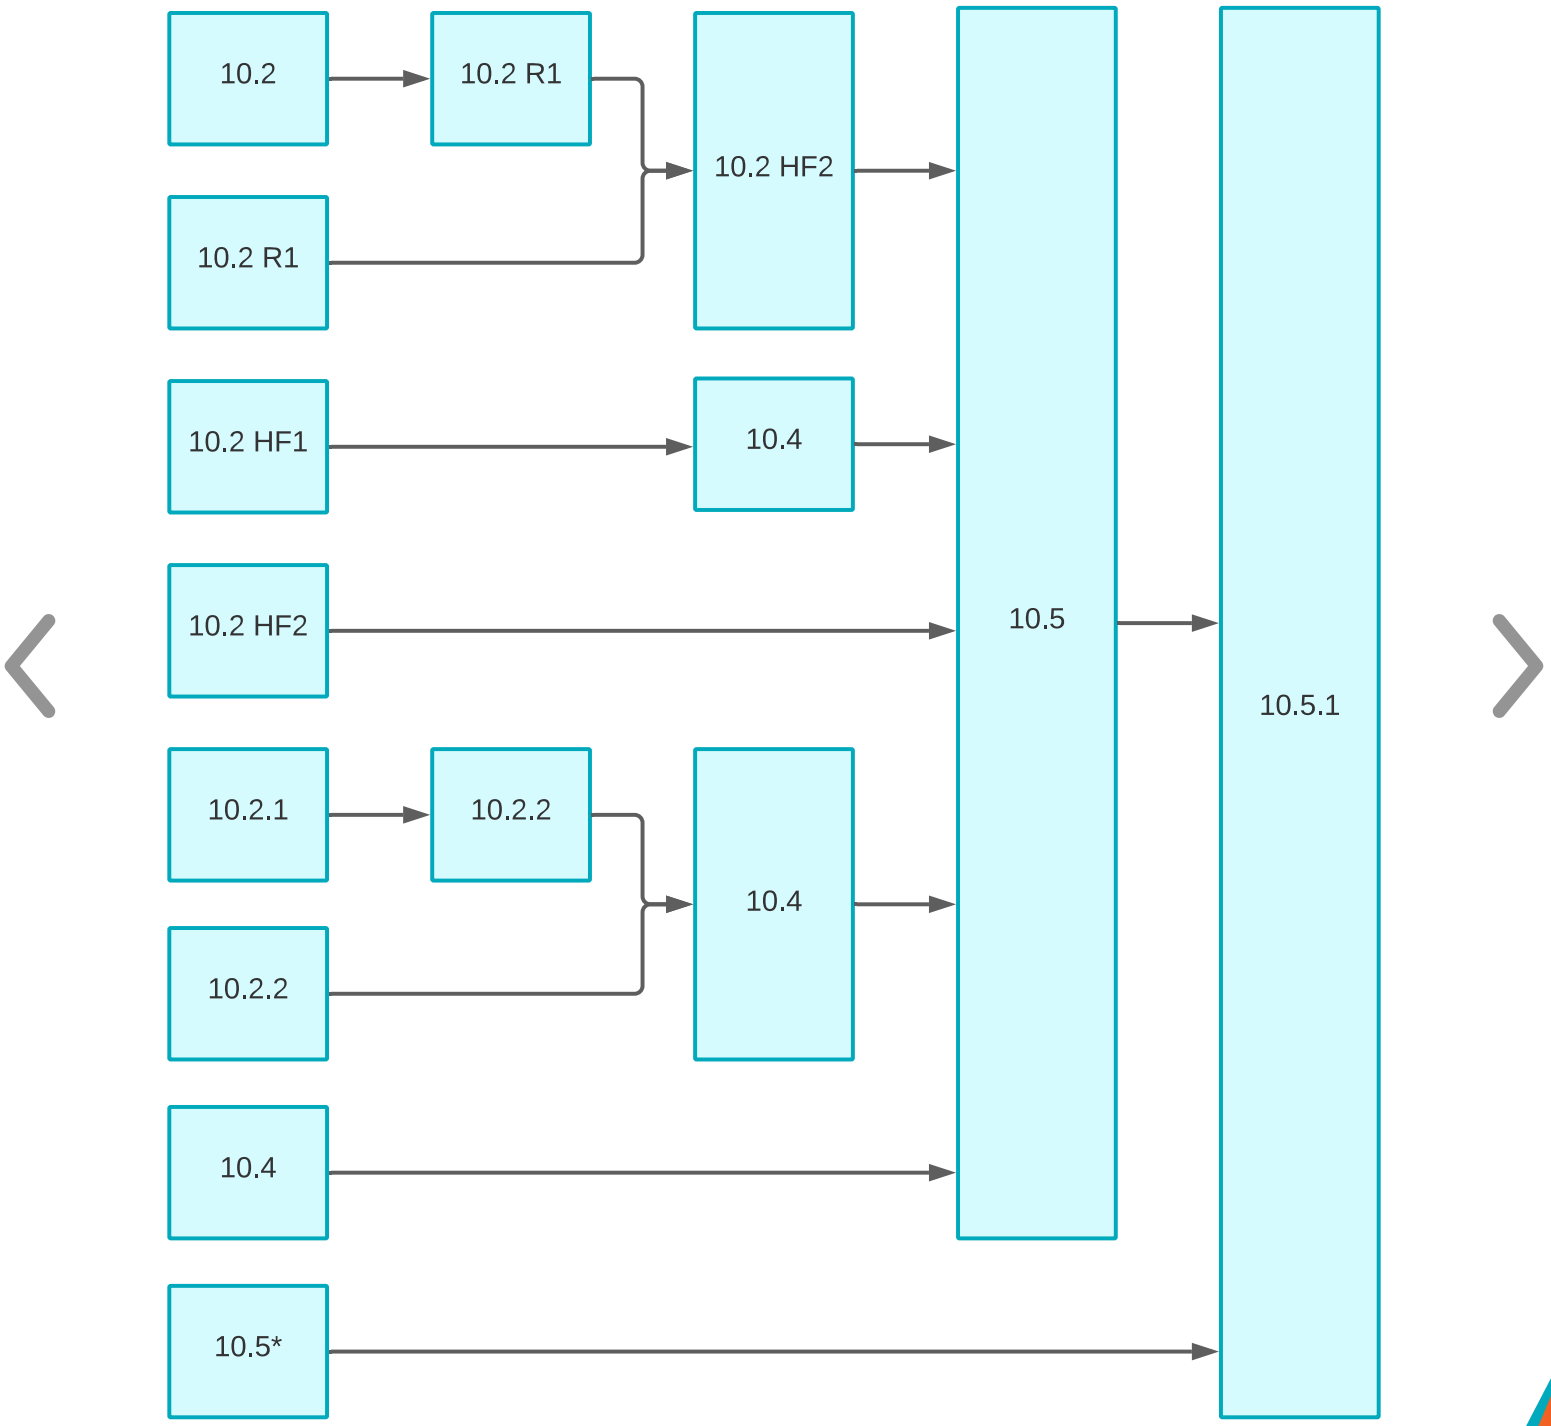

*To upgrade from 10.5, apply the 10.5.1 hotfix.

Informatica

Test Data Management

The following image shows the upgrade paths to version 10.5.1 for Test Data Management. To open the guide, click on any box in the upgrade path.

If Test Data Management is in the same domain as PowerCenter or Data Engineering Integration or both, verify that they are upgraded to the same version before you upgrade to 10.5.1.

*To upgrade from 10.5, apply the 10.5.1 hotfix.
